Experience

Boomi LP, Remote
Director, Growth & Customer Lifecycle 10/2023 – 07/2025

- Owned the end-to-end product growth and lifecycle strategy, leading a team of 15 across product marketing, RevOps, and lifecycle to drive adoption and expansion of a complex SaaS platform.
- Designed and executed a unified experimentation framework for onboarding and in-product upsell, boosting trial-to-paid conversion rates by 4% and generating $25M in pipeline and $4M ARR from self-serve and free-to-paid motions.
- Partnered with Product, Engineering, and Sales to launch Trial + PayGo on AWS Marketplace, acquiring 27 new logos and generating $24.6M pipeline and $3.9M won ACV.
- Delivered personalized onboarding and adoption journeys through Pendo and Segment, resulting in a 42% uplift in trial success rate and record trial-driven ACV bookings.
- Translated customer feedback and usage analytics into messaging insights that informed content strategy, lifecycle campaigns, and persona-based go-to-market motions for both technical and line-of-business buyers

Boomi LP, Remote
Sr. **Manager, Growth** 01/2021 – 10/2023

- Managed a 6-person team across sales operations, analytics, and content to scale product-led growth and lifecycle initiatives.
- Scaled PLG operations across trials and PayGo, defining lead routing and PQL handling that accelerated acquisition while lowering churn by 10%
- Implemented in-app product analytics and behavior-driven outreach across Pendo, Segment, and Marketo, improving trial conversion by 8% and building cross-functional alignment on PLG adoption.
- Partnered with Finance and Sales Ops to operationalize a new PayGo pricing model, automating bookings and reducing CAC by shifting to a digital-first, low-touch motion.
- Established SLAs and benchmarks for prospect engagement, working closely with the sales and marketing.
- Collaborated with senior leadership to align PLG metrics to company-wide growth and lifecycle strategy, ensuring visibility and adoption across Sales, Success, and Marketing.

Dell Boomi, Remote
Sr. Integration Engineer 02/2018 – 01/2021

- Explore new technologies for use with integration partners such as Snowflake, IFS, Thru, and others.
- Developed proofs of concept for clients using multiple endpoints across Boomi's connector library.
- Responsible for highly detailed internal documentation, as well as less technically oriented client-facing.
- Published How-To articles on public facing Boomiverse.
- Created dozens of reusable packaged solutions to be used on Boomi Discover.
- Coordinate with other Dell lines of business to move their integration platforms to Boomi from competitors.

Susquehanna International Group, Bala Cynwyd PA
Sr. Production Engineer 10/2015 – 02/2018

- Manage changes and upgrades to Production and Development Nagios environments, including implementation of client requests, testing version upgrades, and ongoing maintenance.
- Maintain and deploy configuration changes for low level multicast monitoring agents and engines.
- Interface with other teams to assist in consuming monitoring statistics and reports.
- Control Ganglia environment, including federation and consumption by other vertical teams.
- Support and troubleshoot MongoDB, MariaDB, and MySQL production Environments.
- Primary support and engineering staff for trading critical GigaSpaces environments.
- Participate and coordinate major version upgrades in GigaSpaces environments for all business units.
- Work directly with developers to provide a more robust development environment and usable hardware.
- Coordinate large qtree migrations and maintenance for 2,400+ servers.
- Create scripts and automation tasks to assist other vertical teams with using primary platforms.
- Support rotation for overnight workflows and trading strategy generation.
